

Eric Ellenbrook

9199 Dixie Redford, MI 48239

(313) 719-8120

Portfolio: ericellenbrook.com

Objective

Junior web developer capable of constructing a Web presence from the ground up looking for a junior level position that will allow me to utilize my skill set in a positive environment conducive to both technical and professional growth.

Technical Summary

Language Knowledge

Fluent: HTML5, CSS3.

Familiar: JavaScript, jQuery, and PHP.

Special Skills

Accessibility, Web Standards, Progressive Enhancement, Google Webmaster Tools, Google Analytics, SEO.

Tools / Platforms

CodeIgniter, Laravel, Sublime Text 2, Adobe Creative Suite

Experience

Livery Leads

Junior Developer / Content Writer

January, 2014 - Present

Placed in charge of modifying pre-existing HTML / CSS content of pre-existing websites in order to create and design a novel appearance. Upon completion of HTML / CSS adjustments original content was then implemented with a focus on keyword-specific phrasing and SEO. Once completed, websites were launched and used to generate sales leads in the luxury transportation industry.

24 Grille

Designer / Developer / Webmaster

August, 2013

Designed and coded a valid and responsive website, without the use of a framework, structured to illustrate critical and customer-relevant information, such as their food and drink menu, and information about their champagne bar. Discovered a way for the restaurant to save hundreds of dollars per month by correcting mistakes in their implementation of their OpenTable reservation software. Finally, a contact form with custom JavaScript anti-spam system was developed in order to prevent bots from using it to send SPAM e-mail.

Education

Henry Ford Community College

Current

Web Development
(In Progress)
